Does your company or organization:

- Provide solar products and installation services?

- Show leadership by taking action in the alternative energy industry?

- Build or install hydro power or micro-hydro powered generation systems?

- Build or install wind turbine systems?

- Supply high efficiency heating, or cooling services?
- Design geothermal heating and cooling systems?

- Provide professional services and support to other green organizations?

- Sell green products, innovation and/or technology?

- Design, supply or build energy efficient, green homes?

- Or are you a town or city, following the leadership of green cities like Vancouver?

There is a spot reserved for you on Energy Wise Canada!

ENERGY WISE CANADA
©A Clean Energy Movement™

Energy Wise Canada is your online resource for sourcing renewable energy companies, initiatives, policies, industry news and specific audit information for your project.
